

বাবি Datathon 2.0

Qualifying Debrief

Road to Finals

To Dos

Sign-up at Kaggle (<https://www.kaggle.com>)

Join competition when it opens (Link to be shared during kick-off)

Add your team members to your team

Get the dataset and submission templates

Train your models on train set and predict on test set

Submit submission file in Kaggle competition page

Upload final submission file and code in specific format (Upload link to be shared during qualifier)

Fingers crossed and wait for final selection

Tabular

Manageable

Realistic

It is not what the dataset contains.
It is what you do with it will define you.

Team formation

- ☐ Team participation is recommended but NOT mandatory

Option 1:

You create your own.

Only registrants are allowed. Input email with which the members registered.

Option 2:

You allow organizers to assign you a team.

A form will be shared after this debrief.
Deadline for team formation choices : **8-Jun 10 AM (GMT+6)**

Submission criticals

- 3** Maximum 3 submissions **per team per day** in Kaggle competition
- 1** Your chosen **best submission and code file** needs to be uploaded in separately shared link

Upload file format –

csv for submission file

ipynb or rmd for code file

Naming convention -

Submission_TeamName_TeamCode.csv

Code_TeamName_TeamCode.ipynb

Code_TeamName_TeamCode.rmd

Submission criticals - Example

For Team = **Multiverse of Madness** and Team Code = **T0023**

Submission_MultiverseOfMadness_T0023.csv

Code_MultiverseOfMadness_T0023.ipynb

Code_MultiverseOfMadness_T0023.rmd

Unique Team Code will be shared with qualifier kick-off mail

Factors to consider

Leaderboard is small part of overall selection criteria.
Only topping leaderboard does not necessarily mean qualification to finals.

Reproducibility

Readability

Explainability

Fair and responsible

AutoML not allowed

Channels to keep your eyes on
